

# MÓNICA PERDOMO SANTANA

📍 Sevilla, Sevilla | ✉ [moni320097@gmail.com](mailto:moni320097@gmail.com) | ☎ +34 627828265 | 📁 [Portfolio](#) | 💼 [Linkedin](#)

## SUMMARY

Junior QA Tester transitioning from language and education roles into tech. Currently building hands-on experience through collaborative QA projects, with a focus on manual and API testing. Strong communicator with a detail-oriented mindset, eager to grow within a dynamic team. Currently studying for an ISTQB certificate.

## EXPERIENCE

### SOFTWARE QA TESTER | Solara Codeworks (Collaborative project) | April 2025 - Present

- Performed manual, API and automation testing. Projects realised are described in the section below.

### TRANSLATOR & INTERPRETER (FR-ES / EN-ES) | Ofilingua SL | May 2021 - June 2024

- Delivered live interpreting in legal and humanitarian contexts. Translated official documents with a focus on clarity, precision, and confidentiality.

## PROJECTS

### API Test Automation Project (Trello API) | [View project](#) | [Repo](#)

- Built an automated Postman test suite covering endpoints and error cases.
- Integrated CI with GitHub Actions for daily scheduled runs and HTML reports.
- Used Newman + htmlextra for clean and transparent reporting hosted via GitHub Pages.

### PostgreSQL Reports Automation | [View project](#) | [Repo](#)

- Automated execution of SQL queries against a Supabase PostgreSQL 17 database using GitHub Actions.
- Exported query results as CSV files and deployed them to GitHub Pages for easy access and reporting.
- Gained experience in database testing, CI pipelines, and secure handling of credentials using GitHub secrets.

### NextTask App - Testing & Bug Reporting | [View project](#) | [Test Documentation sample](#)

- Created detailed test plans covering diverse features of the app.
- Managed and executed functional test cases and bug tracking using Jira and Xray.
- Collaborated with a teammate responsible for development.

## CERTIFICATIONS

### Postman: The Complete Guide - REST API Testing | [Certificate](#)

Covers manual & automated API testing, CI workflows with GitLab & Jenkins.

### The Complete SQL BootCamp | [Certificate](#)

Centered on learning how to work with a PostgreSQL database and how to interact with it using SQL scripting.

### Software Testing Masterclass (2025) | [Certificate](#)

Focus on test case design, bug tracking, API tools (Postman, Charles Proxy), test management (Jira, Xray, TestRail)

## LANGUAGES

English (C1) | Trinity ISE III • 2025

French (C1) | DALF • 2025

Spanish (Native)

## EDUCATION

- **MASTER'S DEGREE** IN TRANSLATION, INTERPRETING AND INTERCULTURAL COMMUNICATION EN-ES | 2022
- **MASTER'S DEGREE** IN SECONDARY EDUCATION & LANGUAGE TEACHING | 2021
- **MODERN LANGUAGES DEGREE** | 2014 - 2019

## SKILLS

Functional Testing | Test Plan/Case Design | Defect Reporting (Jira) | Test Management (Xray)  
API Testing (Postman) | Testing Automation (Newman) | JavaScript for Testing (Postman scripts)  
Automation Testing | CI/CD Fundamentals | GitHub Actions | Jenkins  
Databases | SQL scripting | PostgreSQL  
Agile | Scrum | Strong Attention to Detail | Analytical Thinking | Adaptability | Teamwork
