SUMMARY

Junior QA Tester transitioning from language and education roles into tech. Currently building hands-on experience through collaborative QA projects, with a focus on manual and API testing. Strong communicator with a detail-oriented mindset, eager to grow within a dynamic QA team.

EXPERIENCE

SOFTWARE QA TESTER (COLLABORATIVE PROJECT)

Solara Codeworks   **April 2025 – Present, Seville, Spain**
· Performed manual and API testing, defect reporting, and CI setup using GitHub Actions. Related QA projects described in the section below.

TRANSLATOR & INTERPRETER (FR-ES / EN-ES)

Ofilingua SL & Spanish Red Cross   **May 2021 – June 2024**
· Delivered live interpreting in legal and humanitarian contexts. Translated official documents with a focus on clarity, precision, and confidentiality.

PROJECTS

API Test Automation Project (Trello API)

 PERSONAL / OPEN-SOURCE · github.com/MonicaPerdomoSantana/trello-api-automation · June 2025 – June 2025
· Built an automated Postman test suite covering endpoints and error cases.
· Integrated CI with GitHub Actions for daily scheduled runs and HTML reports.
· Used Newman + htmlextra for clean and transparent reporting hosted via GitHub Pages.

Test Plan & Bug Reporting — NextTask App

Solara Codeworks · solara-next-task.netlify.app · April 2025 – May 2025
· Created a detailed test plan covering CRUD flows.
· Managed test cases and bug tracking using Jira and Xray; documentation in Confluence.
· Collaborated with a teammate responsible for development.
